

DYNAMATIC TECHNOLOGIES LIMITED

Company:

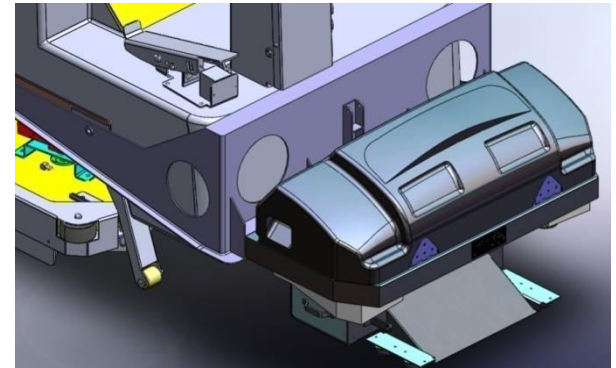

One of the Largest producer of Hydraulic Gear Pumps in Asia. Globally it is one of the top five.

Challenges :

- Accelerate product development process.
- Catch critical problems before manufacturing stage.
- Need for an easy-to-learn and easy-to-use 3D CAD solution.

Benefits of SolidWorks :

- Reduced design time by 30% to 50%.
- Physical simulation capabilities identify flaws early in design process.
- SolidWorks is user friendly and easy to learn.

SolidWorks has helped in converting manual drawings into models of components . Form models we were able to make Sub assemblies & Main assemblies which helped us in better visualization & improvement of component design in a faster manner.”
