

TECHNICAL COMMUNICATION

Improve your technical communication with 3D product manufacturing information, automated creation of inspection documents, and repurposing of design data for high quality graphics, illustrations, and interactive 3D

SOLIDWORKS COMPOSER MATRIX

	SolidWorks Composer	Solidworks Composer Enterprise Sync	SolidWorks Composer Player (No Charge)
Import SOLIDWORKS, Creo (read only)	<input type="checkbox"/>		
Update content with latest design changes (geometry, BOM tree, metadata)	<input type="checkbox"/>		
Create stepbystep procedures showing incremental components	<input type="checkbox"/>		
Capture exploded views with automated trail lines	<input type="checkbox"/>		
Add annotations (auto balloons, BOM table, arrows, detail views, and more)	<input type="checkbox"/>		
Change appearances (hide/show, transparency, colors)	<input type="checkbox"/>		
Create manufacturing BOM independent of engineering BOM	<input type="checkbox"/>		
Customize parts lists and properties for each view	<input type="checkbox"/>		
Create keyframe animation by dragdrop views on timeline	<input type="checkbox"/>		
Create interactive storyboards by adding links to relevant views	<input type="checkbox"/>		
Animate appearances and custom properties	<input type="checkbox"/>		
Interactive animation with markers	<input type="checkbox"/>		
Filter timeline keys for finer control	<input type="checkbox"/>		
Update animation with latest design changes	<input type="checkbox"/>		
Static images (raster graphics and vector line art)	<input type="checkbox"/>		
Dynamic AVI videos (multiple codecs supported)	<input type="checkbox"/>		
Interactive 3D documents (as lightweight executable)	<input type="checkbox"/>		
Protect intellectual property (secure 3D brush, rights manager)	<input type="checkbox"/>		
Standardize styles for creating content (balloons, labels, annotations)	<input type="checkbox"/>		
Standardize profiles for publishing content (raster, vector, video, views, BoM)	<input type="checkbox"/>		
Standardize default document settings (import, output qualities, security rights)	<input type="checkbox"/>		
Publish consistent quality with paperspace (wYSiWYG—what you see is what you get)	<input type="checkbox"/>		
Automate content creation by using custom API programs	<input type="checkbox"/>		

Automate batch mode import of 3D files and publishing content		<input type="checkbox"/>	
Automate document creation within existing workflow systems		<input type="checkbox"/>	
Automate document translation by using custom XMI program		<input type="checkbox"/>	
Rotate, zoom, animate, measure, view BOM, section (rights controlled by author)			<input type="checkbox"/>
View stepbystep interactive instructions with no additional UI			<input type="checkbox"/>
Create custom applications to distribute internally or over website			<input type="checkbox"/>
