

# Unique Punch Systems Pvt Ltd

- **Company:** We manufacture precision sheet metal components like UPS Cabinets, Inverters, Computer Cabinets, Control Panels, Sub assemblies of lifts & escalators etc.
- **Challenge:**
  - Reduce lead time for new developments as well as scaling up existing designs.
  - Eliminate “ Trial and Error” concept of Designs.
  - Analysing Assemblies.
  - Development of Sheet Metal Components
- **SolidWorks Benefits:**
  - Solid modelling and sheet metal capabilities
  - 3D visualization and communication
  - Faster Designing and can update the model at any stage.
  - Development of Sheet Metal components is possible

**“Our aim was to completely design, develop and manufacture complex sheet metal components with less human errors. SolidWorks helped us achieve that goal.”**

**V.R. Lakshmish,  
General Manager**
