

## Company:

We make brands work. ICARUS, is a consultancy specializing in Industrial Design and Branding.

Our focus has been to use Design to solve business problems.

ICARUS offers Services in Industrial design and Mechanical design

## Challenges

- Hit the market.
- ahead of competitors.
- Ability to make changes in models and related drawings at once.
- Tool to ease the production of different configurations

## Benefits of SolidWorks

- Reap significant market share with accelerated time-to-market.
- Saved time through associability between models and drawings.
- Organized design data for making different configurations faster.

**“SolidWorks demonstrated a superior interface and the broadest range of add-on functionality for assembly of plastics components.”**

**- Sunil Sudhakaran, CEO**
