### ABOUT Mekhos Technology Services Private limited

MEKHOS TECHNOLOGY PVT LTD we believe that the design stage is definitely the crux of delivering a top-notch machine and SOLIDWORKS helps us meet our KPIs.

**Challenge:** •The challenge of selecting appropriate mechanism design for their solution needs

- Automate the design process faster to meet product & market requirements
- Evaluating structural integrity for real world applications, Collaboration with suppliers/vendors with other native CAD formats to complete product design process

**Solution:** SOLIDWORKS Premium seamlessly integrates powerful design tools including industry-leading part, assembly, and drawing capabilities with built-in simulation, cost estimation, rendering, animation, and product data management to help you get your work is done faster and easier than ever before.

- Benefits:**
- Developed mechanical systems faster to reduce the product design cycle time
  - Linear static & time-based analysis to evaluate structural integrity & mechanism design
  - Improved product accuracy and quality

SOLIDWORKS has helped provide superior user experience to our design stage. Adopting this software has enhanced our time to market and quality of delivery

*“SOLIDWORKS has helped provide superior user experience to our design stage”.*
