

ABOUT Opterna Technologies Private limited

OPTERNA Technologies provides connectivity solutions that continuously add value over the 'life-cycle' of the network. Their products power the most demanding areas of the infrastructure, which are subject to frequent human interaction and constant change. Providing the highest return on investment by simplifying and speeding up the most dynamic network areas.

Challenge: • As an engineering service company, we need to have a high-quality result in design, quality and manufacturability. In today's competitive market, innovative product must be developed faster, more predictable quality and at lower costs than your competition.

Solution: Implement SOLIDWORKS 3D CAD design and SOLIDWORKS Visualize photorealistic rendering software solution

Benefits: • Reduced product development costs dramatically
• Reduced error rates by 95 percent
• Improved design communication capabilities
• Achieved best rendering quality in least amount of time

Adopting this software has enhanced our time to market and quality of delivery. SOLIDWORKS and Conceptia Konnect is the best combination which has helped our Organization to design new fibre optic products for the last ten years.

"SOLIDWORKS and Conceptia Konnect is the best combination which has helped our Organization to design new fibre optic products for the last ten years."

P S Subin –Senior Engineer, R&D
