ABOUT Synergy Process Solutions Private limited

Synergy Process Solutions Private Limited is the subsidiary of Synergy International FZE. Synergy International FZE is a technical resource engineering company based in the United Arab Emirates with expertise in the Bulk conveying system, Power transmission, Wear protection & Environmental solution for cement, steel, mining, and sugar industries. We have a very good presence in core sector industries in UAE, KSA, Qatar, Bahrain, India.

Challenge: •Automate Conceptual development by finding, reusing and reconfiguring existing designs also communicating effectively with strategic partners.
•Collaborating with combined segments of weldment, piping and large assembly design tools.
•Kinematics and Dynamic response analysis indication on a larger scale for effective functionality.

Solution: SOLIDWORKS Premium helps us to improve efficiencies and productivity gains at every stage of the development process from conceptual and proposal development through design validation, production, and implementation. Moreover, the same model can be used for concept development, design automation, simulation, and communication, as well as for prototype development and product manufacturing.

Benefits: Existing Design usage with Configurations specified for each modification made reduced Design Cycle time . Availability of Weldments, Piping and tubing and large design review helps improve performance lagging time and collaborated different structures into one.

SOLIDWORKS and Conceptia Konnect is the best combination which has helped our Organization to design new fiber optic products for the last ten years. SOLIDWORKS with simple tools is capable of doing any kind of design, be it for Metal, Plastic or Sheetmetal.

"SOLIDWORKS has empowered our team to go in-depth to all the minor details of complex systems that involved in complete industrial applications of project design"

A L Joby – Managing Director
Synergy Process Solutions Private limited

ABOUT US

Conceptia Konnect is an award-winning Authorized Value-Added Reseller for SOLIDWORKS, SOLIDWORKS Simulation, SOLIDWORKS Flow Simulation, SOLIDWORKS Composer (Formerly 3DVia), SOLIDWORKS Plastics, SOLIDWORKS Electrical, SOLIDWORKS Product Data Management and DraftSight. We also provide state-of-the-art solutions from DriveWorks and 3Dconnexion and handle the All India Distribution and reseller network for InspectionXpert Corporation.
