

Industrial Equipment

ABOUT THERELEK ENGINEERS

Therelek, located in Bengaluru is a technology and market leader in the manufacture of high temperature furnaces, vacuum furnaces, ovens, kilns, heat treatment systems and custom engineered industrial heating solutions. It has a state-of-the-art R&D facility and fully equipped materials sciences laboratory.

Challenge: Large assembly with several hundred components included utilizes loading time to a greater extent. Comparison of Different process drawings in the CAD workspace and identifying changes.

Solution: With the help of Speed Pack configurations and Large Design review appropriate loading time can be reduced and Productivity time increased in turn. Draw compare in DraftSight highlights the difference between two drawings and displays the changes modified.

- Benefits:**
- Productivity Enhancement
 - Reduced Design Cycle time
 - Pushing the product on time to market
 - Eliminating the increased number of prototypes

We are using SOLIDWORKS & DraftSight applications for all our 3D & 2D design requirements. The ease of use with some great features has helped us to create drawings quicker and thus improving our efficiency and productivity.

“DraftSight has very similar functionalities as other leading CAD applications and adapting to it with the knowledge of any 2D CAD software is effortless.”

Chethan G– Design Team

Therelek Engineer Private limited

ABOUT US

Conceptia Konnect is an award-winning Authorized Value-Added Reseller for SOLIDWORKS, SOLIDWORKS Simulation, SOLIDWORKS Flow Simulation, SOLIDWORKS Composer (Formerly 3DVia), SOLIDWORKS Plastics, SOLIDWORKS Electrical, SOLIDWORKS Product Data Management and DraftSight. We also provide state-of-the-art solutions from DriveWorks and 3Dconnexion and handle the All India Distribution and reseller network for InspectionXpert Corporation.
