

# SOLIDWORKS Network License Borrowing and Returning

Document Number	CK_DOC_003
Revision	01
Date	30/08/2021

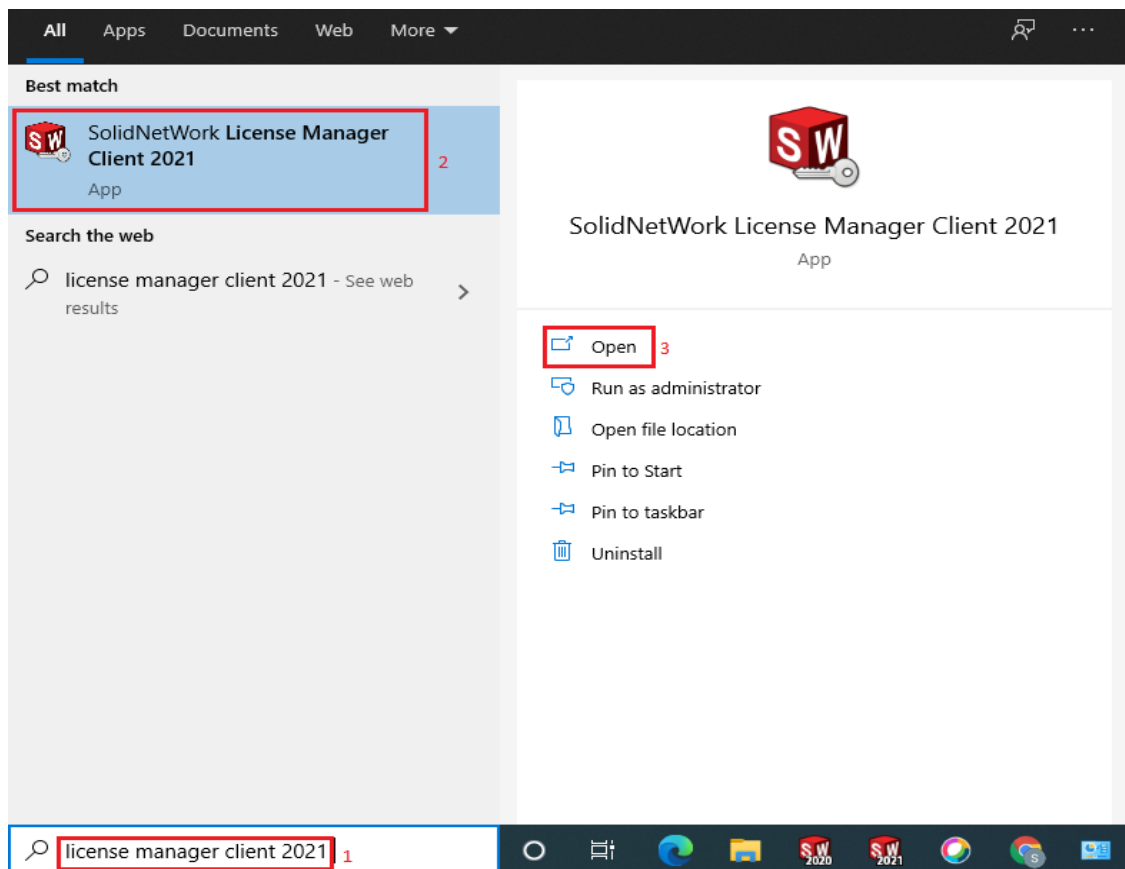

SOLIDWORKS Network Licenses are hosted on a server connected to your network and allows a number of users on the same network to share access to associated product licenses. The network License Manger (NLM) has to be installed in both server and client systems to control or access the distribution of product licenses. Borrowing a product license allows the user to use the software from a remote location.

**NOTE:** If the multiple version of SOLIDWORKS are installed in client system, it is always recommended to borrow the license in the highest version installed.

## 1. Borrowing SolidNetWork License

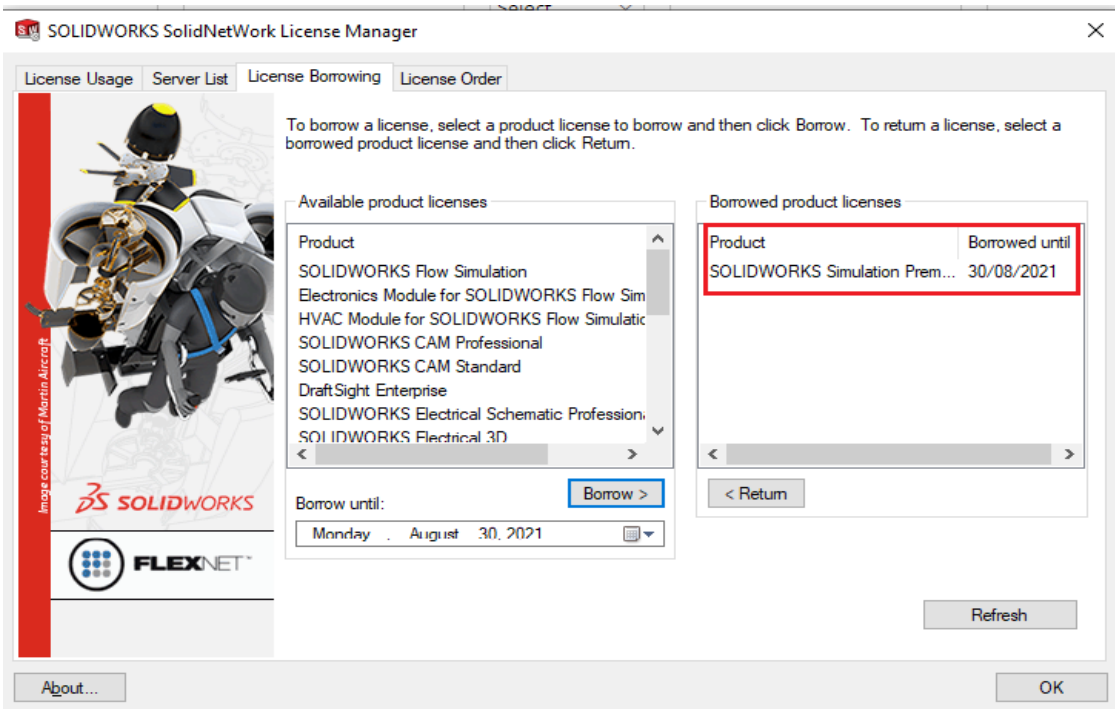

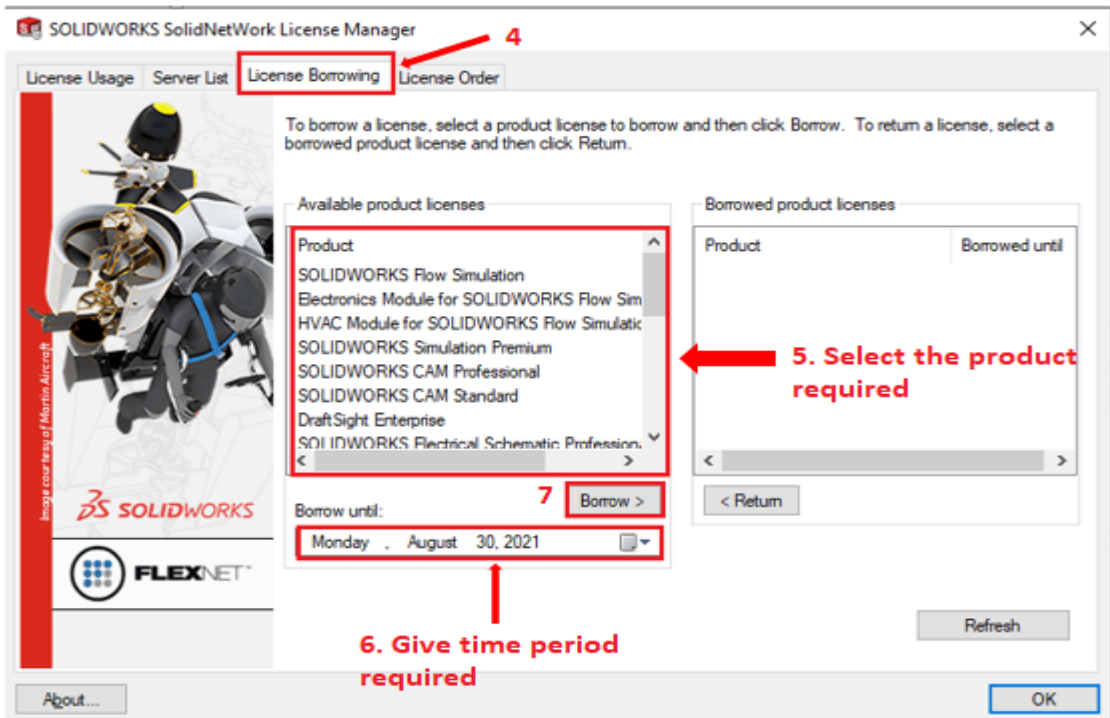

User can borrow a SolidNetWork products license for a maximum time period of 30 days.

SolidNetWork License Manager Client XXXX>>License Borrowing>>Select Product and borrow time>>Borrow

**Conceptia Software Technologies Private Limited**

# 22,2<sup>nd</sup> Floor,100 feet Ring road,6<sup>th</sup> Block3rd Phase,BSK 3<sup>rd</sup> stage, Bangalore-560 085, India  
 `Phone +91 80 41558618 Fax +91 80 26798959 Email info@ckconnect.in

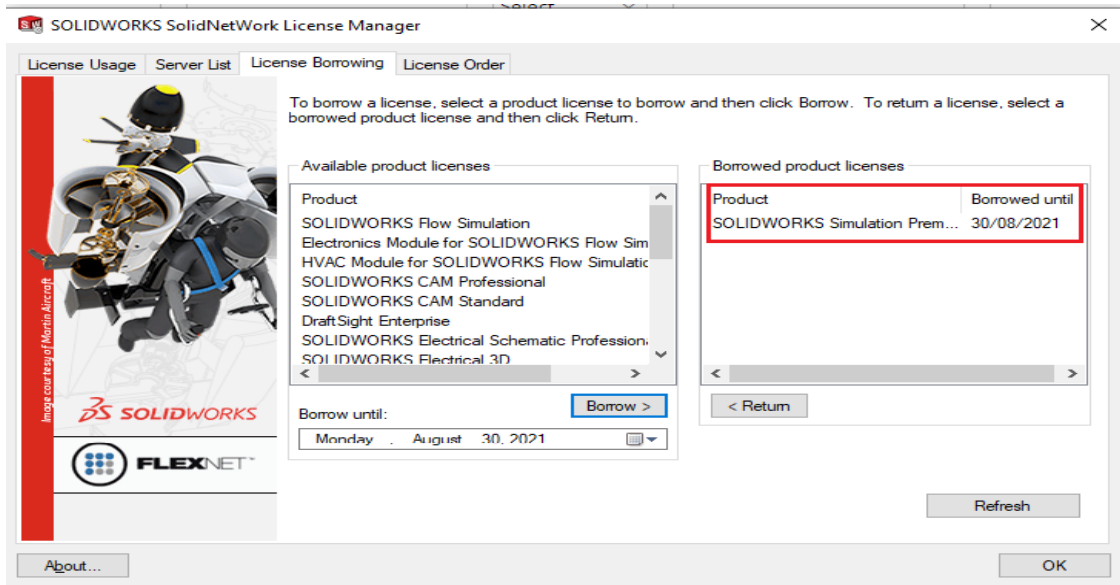

Licenses borrowed will be displayed in the Borrowed product licenses tab.
